Thanksgiving Offering 2026

Training Centers for Team Valor - FAQ

Who is Team Valor?

In 2013, Andrew and Reilly, former Legacy Christian Church youth and family ministers, answered God's call to missions. Through a partnership with Team Expansion, an organization committed to reaching the unreached by multiplying disciples and churches, they were sent to West Africa.

In 2018, two local believers joined their ministry, and a new vision began to take shape.

Today, that ministry has grown into Team Valor, a team of more than 55 leaders committed to making disciples, planting churches, developing leaders, and serving communities throughout West Africa and beyond.

What is an Unreached People Group?

An Unreached People Group (UPG) is a group of people with little or no access to the gospel and few local believers or churches to share the message of Jesus.

More than 7,000 unreached people groups exist worldwide, representing nearly 40% of the world's population.

How has Legacy committed to reaching an Unreached People Group?

When Legacy helped train, equip, and send Andrew and Reilly, we established a covenant partnership with Team Expansion to reach a specific Unreached People Group in West Africa. Together, we committed to **pray, give, go, and send.**

What began as a mission to reach one people group has grown into a disciple-making movement reaching many of the 30+ unreached people groups in West Africa and expanding into more than five countries.

Through this ministry, God has brought incredible growth:

- **15,000+ baptisms**
- **1,000+ house churches established**
- **24,000+ people gathering weekly**

Why are Training Centers needed?

Training Centers equip local leaders to share the gospel, make disciples, and plant churches. They also strengthen communities through three key areas:

Leadership Development: Training and coaching local leaders in evangelism, discipleship, and church planting.

Literacy and Education: Teaching literacy skills so individuals can read the Bible, grow in their faith, and disciple others.

Economic Sustainability: Providing agricultural and vocational training that helps leaders and families support themselves financially. Agriculture and grain storage also generate local income to help sustain the ministry long-term.

These centers do more than provide training. They equip local believers to become self-sustaining leaders who can share the gospel and multiply disciples throughout their communities.

What is the cost to build a Training Center?

Team Valor has already completed two Training Centers, with four additional centers currently under construction.

- **$95,000** is needed to complete the four centers under construction.
- **$150,000** would fund two additional Training Centers at $75,000 each.

Our prayer is that through this year's Thanksgiving Offering, we can bless Team Valor with **at least $95,000 to complete the four Training Centers currently under construction.** These centers will equip leaders, multiply disciples, and help more communities hear the gospel.

But wouldn't it be incredible if we could give $245,000? That would allow Team Valor to complete the four centers already under construction **and build two additional Training Centers**, expanding the reach of the gospel even further!

How can I participate?

God is moving through Team Valor, and the gospel continues to spread throughout West Africa.

Pray: Pray for Team Valor, the local leaders being trained, and the communities hearing the gospel.

Give: Support the Thanksgiving Offering to help complete and build Training Centers that equip leaders and multiply disciples.

Every prayer and every gift plays a part in helping more people hear the good news of Jesus.
